25X1									
	e. Ammunition dump south of the highway running slong the base of Hill 436:								
25X1	Ammunition from six sheds was observed to be loaded on 15 trucks								
25X1									
20/(1									
	f. Wield practices:								
	Infantry and motorcycle troops held firing practices in the training area near CRAWINKEL. The practice, involving about 80 troops, was directed from three small armored vehicles (with rubber tires).								
25X1	C. Engineer equipment dumps about three miles south of CHAWINKEL. Several lumps with pontoons and engineer equipment were observed near a res rvoir located in this area. A unit of about 50 proops was seen practicing at some pontoon-piers.								
25X1									
	h. Unloading of ammunition:								
	Ammunition boxes were unloaded from six boxcars at the CRAWINKEL railroad station on 22 September 1949 and shipped by truck to the mentioned amounition dump (para).								
	Early October 1949								
2.	a. The troop camps in the OHRLRUF area were occupied to capacity by tank, artillary, infantry, motor transport and engineer units in early October 1949. Most of the observed troops were youn. The maneuvers conducted here were allegedly scheduled to end in mid-October 1949.								
	from a distance some small infantry units practicing attack and penetration of enemy positions. The firing of heavy mortars rose above the noise of other weapons. Salvos of artillery pieces firing simultaneously were released upon the firing of ground signals. Forty to fifty T34 tanks were seen to leave for a field exercise.
